Counsel for Gray was even more noncommittal and outside of a number of character witnesses the names of whom have not been divulged there was left only the rumor that Gray's defense would be based along the lines made famous in the Leopold-Locb trial in Chicage. If this proves true then a galaxy of medical and brain experts will be called to attempt to prove that Gray lived in a "dream world" and suffered from sex-domination by the blonde housewife that he once called "Momsy."

Gray's "court stupor," affected since the beginning of the trial, lends cradence to this report and the Leopold.

RITCHIE THINKS SMITH'S LETTER REVIVES POLITICS

The relation of the press to politics was discussed tonight by Albert C. Ritchie, governor of Maryland, who spokes at the annual dinner of the bureau of advertising of the American Newspaper Publishers' association.

After surveying the journalism of the day for Publishers' association.

After surveying the journalism of the day, 'Gov. Ritchie said the public generally appeared to be losing its appreciation of politics—the average man appeared to regard politics as a game rather than a struggle for principles. "Just as we were all growing conscious and sensitive of the possibility of that old hydra headed monster, religious intolerance, injecting itself into our political life and jeopardising our very existence as a free and happy naton, Gov. Al Smith hands out a letter destined, I believed, to be one of the historic monuments of free government and one of the heroic contribu-

The press is discussing the matter gravely.
Until a few years ago any graduate of the Imperial university could pick the place he desire The big firms, law offices, and government services scrambled for the honor winners. This year, of the 730 to be graduated, only 290 are sure of work, and the lucky 250 have to be satisfied with places paying only between \$35 and \$40 a month. Melji university will graduate 1,100, of whom 200 have positions in sight. Kelo university, with 900 to be graduated, will send only 300/to positions, while from the 1,800 to be graduated from Waseds, the biggest university, only 150 so far may look forward to an assured pay day.

For a man

MHY does a man gladly pay a premium for a custom-tailored suit of clothes? "That's easy." you say. "He selects just the pattern, exactly the

shade, even the weave that strikes his fancy. Then a competent tailor measures him, cuts the cloth as his figure demands, and fits him perfectly."

Now-except that you pay no premium - the new creations in Armstrong's Linoleum offer you a custom-tailored floor - selected, cut, fitted to your establishment.

You choose from richer colorings; more original patterns, even a new texture if you will, and the proper border is added. Then the floor is permanently cemented in place; it becomes a built-in structural part of the interior.

New floor designs by Armstrong floors with a modern snap and go-have captured the interest of architects and decorators. What are these designs? Many are really new ideas in floorsdifferent from any floor you know. Just a few are shown here, but any good department, furniture, or linoleum store will be glad to show you dozens more.

> A FREE BOOK on Business Floors

In addition to photographs of Armstrong's Linoleum Floors in many lines of business endeavor and colorplates of the new patterns, this book gives helpful advice on their installation, care, and cleaning. Write for "Enduring Floors of Good Taste"

# Rocky Mountain Vacation Bargains

SEE WHAT THE BURLINGTON ENABLES YOU TO DO IN TWO WEEKS AT SURPRISINGLY LOW COST

ALL the wild, wonderful sweep of the Rockies is yours to choose from this summer—and you can go! Two weeks is time enough. And

Burlington summer rates to the Rockies, effective June 1, are surprisingly low. Living costs are very reasonable—probably lower than you would pay on an ordinary vacation.

### Scenic Colorado Round Trip \$43.05

Where is grander scenery than Rocky Mountain National-Estes Park, the Pike's Peak region, Denver's Mountain Parks, the famous 236-mile Grand Circle Tour?

Summer rates to Colorado on the

Burlington are way down. For example, a regular \$74 round trip ticket from Chicago is \$43.05 at the summer rate. Good lodgings and meals in Colorado for as low as

\$17.50 a week.

For a moderate additional cost you can have your Burlington ticket take you to magic Yellowstone and Glacier National Park.

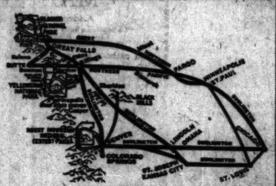

### Yellowstone Park Round Trip \$59.35

The Burlington offers you the greatest Yellowstone tour of all—including the thrilling 90-mile motor ride over the Cody Road without extra cost.

Send for FREE BOOKS

Your Burlington-Yellowstone tour also takes you to Colorado without extra cost. A side-trip from Denver to Colorado Springs and return is free for the asking.

Or you can visit Glacier Park at slight additional cost.

### Most Popular Route to the Rockies

Only the Burlington's complete service to the entire Rocky Mountain playland makes vacation bargains like these possible.

The Burlington has the only through trains from Chicago to the Cody, Gardiner, and Bozeman (Gallatin Canyon) gateways to Yellowstone; the only through trains to Glacier Park; the only through Pullmans between Yellowstone and Glacier, and between Denver and the Cody Yellowstone Gateway.

Glacier Park Round Trip \$60.90

Round Trip \$60.90

Here is the world's greatest bargain in vacation trips! Your Burlington ticket takes you to Glacier National Park—the wildest and grandest mountain playground in America.

Then—to Yellowstone Park for only \$4.75 extra rail cost.

Then—to scenic Colorado at no extra cost whatever. On the way—side-trips to the Black Hills or Big Horn Mountains. Free side-trip from Denver to Colorado Springs.

The Burlington is the only rail-road which offers you these desirable combinations of routes.

### Burlington Escorted Tours

Here is a new, carefree way to see the Rockies—with a Burlington Escorted Tour Party. Definite cost covering all necessary expenses. Everything planned in advance. Travel expert with each party. Ask for tours book.

# Now-Renting Cars to a Million a Year

The Sensational Record of Hertz Driv-ur-self Stations

This year—more than a million people will rent cars from Hertz Driv-ur-self Stations on the popular pay-as-you-use-it plan. A record we believe to be without parallel since the motor car took its vital place in social, recreation and

A service that attracts a million users must have very definite advantages in store for YOUwhatever your station in life. For this great patronage includes men and women in every class, from millionaires to those of extremely moderate means.

You rent a car now in a new and easier way. Questions, red tape and annoyances you may have experienced in the past are completely done away with. Our method of renting cars is business-like, a model of fairness, simplicity itself.

If your name is in the phone book, and you are qualified and competent to drive-we rent you a car without further identification. Those not listed give one reference, that is all. Either way, you're on the road in about two minutes.

And when you rent a car from Hertz Driv-ur-self Stations you become one of the insured under a public liability insurance policy with limits of \$10,000 and \$20,000 for personal injuries, and \$1,000 for property damage. This policy is supplied by one of the largest old-line insurance companies. We further protect you against collision damage over \$10 to rented car and against loss of car through fire or theft.

Come in—at your first opportunity and ask for your Key to Hertz Driv-ur-self Service. We give it to you on a key ring without cost or obligation. It bears your name-is registered and a reward offered for the return of your keys if lost. Simply show this Key at our station-it enables you to rent a car without as much as a moment's delay.

Ancient Roman Hypocaust

### An Industry 2000 Years Old -And Commercial Banking

FIRE, the source of heat, is as old as mankind. Braziers and open fireplaces were in use at least 9000 years ago but the first use of radiation or central heating was the Roman hypocaust about 850 B. C. This was a firebox in the basement of Roman homes which heated the rooms above by means of flues. It was the forerunner of the modern warm-

James Watt, inventor of the steam engine, is credited with using one of the first steam heating plants in 1784. Among the early users of central heating was the Duke of Welling-ton who installed a hot water pipe heating system in his

Today nearly every large office building, hotel and apartment house in the United States is heated by steam or hot-water radiators, while practically every modern home, except in the sections where there is little or no cold weather, is equipped ther with radiators or with a warm air furnace.

Like most industries, production in the heating equipment business does not always parallel sales, and manufacturers from time to time burnow from their commercial bankers to bridge the gap between the purchase of the raw materials and the sale of the finished product. In this way heating equipment is always available to the public.

Russell Plan Trust

# "Piece of Paper" that is a piece of Property

Even a casual study of the future of Chicago real estate and building values will indicate to you the wisdom of investing in Russell Plan Trust Ownership Certificates.

Each Ownership Certificate makes you an actual part owner in a specific building and the real estate on which it stands. The Russell Plan Trust accepts only apartment and other buildings in good residential centers where real estate values are constantly increasing. Three appraisals govern the listed value of each property. Your title is guaranteed by the Chicago Title and Trust Company, and the Chicago Trust Company, and the Chicago Trust Company acts as trustee for all certificate owners.

### Both Interest and Profits

These Ownership Certificates not only pay handsome interest, but each one gives its owner his share in all profits realized from the roperty, whether from rentals or ultimate sale. As an investment it is hard to find anything more attractive. Each certificate is subject only to real property tax.

Still another sale reported by Mr. Connell is the house at 6808 Wayne avenue which Gawsner Bros. purchased from Lydia A. Jones of Flemingsburg, Ky., for \$25,000. A forty-two kitchenette apartment building is to be erected. An undisclosed syndicate has bought the residence at 5811-15 Sheridan road from the Offield estate for \$150,000, according to Mr. Connell. The property has a frontage of 100 feet. No building plans are announced.

7% External Sinking Fund Gold Bonds

Consolidation Loan of 1926

Due May 1, 1958

A substantial amount of these bonds has been placed in Euro pe, including bonds which are being offered in Amsterdam by Pierson & Co., Nederlandsche Handel-Maatschappij, Mendelssohn & Co. Amsterdam, Prochl & Gutmann and Vermeer & Co.

HALLGARTEN & CO. and KISSEL, KINNICUTT & CO., Fiscal Agents

The following is summarised from a letter (transmitted by cable) of Dr. Francisco Ratto, Minister of Finance of the Province:

AMOUNT AND PURPOSE OF ISSUE: The Act authorizing this issue provides that the proceeds thereof shall be applied to the liquidation of the floating and short term indebtedness of the Province. These bonds form part of an authorized issue (the Consolidation Loan of 1926) of 42,020,000 Argentine gold pesos (about \$40,500,000) or the equivalent in foreign currencies at legal parity, of which amount 6,020,000 gold pesos (about \$5,800,000) are being placed by the Province as an internal issue. The balance of 36,000,000 gold pesos (\$34,735,623) was authorized for issuance externally, and \$24,121,000 of that amount has previously been issued as 7% External Sinking Fund Gold Bonds. Consolidation Loan of 1926, dated December 1, 1926, due, June 1, 1957. The present issue represents the remainder of the authorized external issue and will serve to complete the liquidation of the floating and short term indebtedness listed in the act.

SECURITY: These external bonds are a direct obligation of the Province of Buenos Aires, which pledges its full faith and credit for the due and punctual payment of principal, interest and sinking fund. In addition these bonds and the other external bonds up to the total of 36,000,000 gold pesos (\$34,735,623) of the Consolidation Loan of 1926 are specifically secured by a first charge and lien on the real estate and inheritance taxes, subject only to the prior charges now existing and the Province covenants that the maximum annual amount of such prior charges is not and shall not exceed 4,700,000 Argentine gold pesos (\$4,535,000).

The Province declares that the real estate tax, the revenues from which will be greatly increased through revaluations effective this year, is calculated to produce not less than the equivalent of 24,200,000 Argentine gold pesos (\$23,300,000) in each fiscal year. After deducting from this amount the said annual prior charges, there remains an amount equal to more than six times the annual service charges on the total authorized external issue of said Consolidation Lean. After deducting the said annual prior charges from the combined calculated annual revenue of the real estate and inheritance taxes, the remainder is equivalent to more than seven times the annual service charges on said total authorized external issue. Should at any time the revenue from the real estate tax fall below the amount above specified, the Province covenants that at the request of the Fiscal Agents it will pledge receipts from other taxes in an amount equal to the deficiency until the revenue from the real estate tax shall again reach the above figure. The Province in addition covenants to establish the rates and bases of the real estate and inheritance taxes in order to ensure as a minimum the revenues referred to above as long as any of these bonds remain outstanding.

All conversions of Argentine pesos to United States dollars have been made at par of exchange.

### \$10,000,000 American Radiator Company

Twenty-Year 4½% Gold Debentures

Dated May 1, 1927

THE FIRST NATIONAL BANK OF THE CITY OF NEW YORK, TRUSTEE

Mr. Clarence M. Woodley, Chairman of the Board, has summarised as follows his letter to us regarding the business of the Company and this issue of Debentures:

The American Radiator Company is the largest manufacturer of radiators and boilers in America. and has important subsidiary companies with fac-tories in Canada, England, Belgium, France, Ger-many, Austria and Italy, in addition to its American subsidiaries.

These \$10,000,000 Debentures constitute the sole funded debt of the Company. The Company has, however, obligations in the nature of purchase conhowever, obligations in the nature of purchase contract liens aggregating \$772,000 on some of its properties and obligations to retire redeemable preferred stock of subsidiary companies amounting to \$3,782,500 in anticipation of which retirement the Company has heretofore invested \$1,960,648 in United States and Canadian bonds.

The Company's consolidated net assets, after deducting all indebtedness, as shown by the consolidated balance sheet of December 31, 1926, amounted to more than \$84,000,000. Net curred assets as of that date amounted to more than \$33,000,000, of which \$9,640,008 was cash. The Company has outstanding 30,000 shares of Preferred Stock and 1,242,561 shares of Common Stock, having a market value, based on published quotations, of over \$150,000,000. Dividends of 7% have been paid on the Preferred Stock since the incorporation of the Company in 1800. poration of the Company in 1899, and dividends on the Common Stock as outstanding from time to time have been paid in every year since 1904.

The Company's consolidated net earnings (after deducting Federal income and excess war profits taxes and all other expenses and charges, including amounts for depreciation and depletion), available for the payment of interest have averaged during the past ten years \$6,991,305, or more than 15 times the annual interest requirements of \$450,000 on this issue of Debentures. In 1926 such net earnings were more than 27 times such annual interest requirements.

(Underwriters Building Corporation) First Mortgage Leasehold 6% Sinking Fund Gold Bonds

Due April 1, 1947

Dated April 1, 1927

CENTRAL TRUST COMPANY OF ILLINOIS, CHICAGO, TRUSTEE

Mr. Ernest R. Graham, President of the Corporation, summarizes his letter, as follows:

Location and Ownership: The new building, to be known as insurance Exchange South, will occupy the south half of the block bounded by Jackson Boulevard, Wells, Van Buren, and Sherman Streets, in the central business district of Chicago, directly west of the Board of Trade Building, and within three blocks' distance of practically all of the most important financial institutions of the City. The building is being erected by the Underwriters Building Corporation—the ownership of which is identical with that of Insurance Exchange Building Corporation, which owns the Insurance Exchange Building occupying the north half of the block—primarily to meet the demand for additional space in that building, which, since its completion in 1912, has been the center of the underwriting and insurance interests of the city. The two buildings, which will be under the same management and so interconnected as to form practically a single building, with streets and light on four sides, will have approximately 1,118,000 square feet of runtable space, and from the standpoint of rentable area will constitute the largest office building in Chicago and the third largest in the United States.

Description of Building: The building, to be erected by John Griffiths & Son Company in accordance with the plans, and under the supervision of Graham, Anderson, Probst & White, Architects, will be a highly modern, steel frame, caisson foundation, twenty-one story, store and office building, with direct frontages on Sherman, Van Buren and Wells Streets and through the interconnection with the present building with entrance from Jackson Boulevard. It will conform in architectural design with the existing building, and will contain about 547,000 square feet of rentable space. The foundation and structural strength of the building are designed to support an eighteen story tower, with 200,000 square feet of additional rentable space.

Security: The bonds will be the direct obligation of the Underwriters Building Corporation ownership of which is identical with that of Insurance Exchange Building Corporation ownership of which is identical with that of Insurance Exchange Building Corporation of will be specifically secured by Closed First Mortgage upon its ninety-nine year leasehold in and to the south half of the above block, comprising 39,500 square feet of ground area, an new twenty-one story building above described, to be erected thereon.

In accordance with the appraisal of Mr. Preston M. Nolan, Real Estate Valuator, the lease estate and completed building are conservatively valued at \$8,668,764. These bonds represent than 58% of such valuation.

Earnings: Based upon a lower rental schedule than has been obtained on all recent leases in the present building, and upon the actual record of operating expenses of that building, the annual net income of Insurance Exchange South, after all operating expenses including allowance for vacancies, available for bond interest, depreciation and Federal taxes, is estimated by Mr. Nolan at \$763,441, equivalent to 2.54 times the maximum interest requirement on these bonds.

Insurance Exchange Building Corporation will enter into an agreement by which funds will be made available whenever necessary to cover taxes, ground rent, bond interest and all other operating and construction costs and contingencies, until the net earnings of Insurance Exchange South available for bond interest and Federal Taxes for a period of six months, have been equal to twice the interest requirements on these bonds for such period.

Sinking Fund: The Trust Indenture will provide for the deposit with the Trustee on October 1, 1930, and on each April 1 and October 1 thereafter, of \$200,000, to be applied first to the payment of the current interest; the balance to be used for the retirement of bonds by purchase or redemption at the then current redemption price; the mortgagor, however, in lieu of money for the retirement of bonds, having the right to surrender bonds at cost or current redemption price, whichever is the lesser; all bonds purchased, tendered or redeemed to be cancelled. If bonds are available at par, the Sinking Fund so provided will retire 57% of the issue prior to maturity.

TO BE ISSUED UNDER THE PHILADELPHIA PLAN

Maturing in annual instalments of \$1,000,000 each, May 1, 1928 to May 1, 1942, inclusive

The following information has been furnished by D. C. Grant, Esq., Vice President of the Canadian National Railway Company:

These \$15,000,000 certificates are to be issued against new standard railway equipment costing not less than \$20,000,000, an initial payment of not less than \$5,000,000 or over 25% of the cash contract cost being made. Title to the equipment is to be vested in the Guaranty Trust Company of New York, Trustee, for the benefit of the certificate holders. The equipment is to be leased for rentals equal to principal and dividends of the certificates together with other charges, as specified in the lease and agreement.

Under the provisions of the statutes of Canada relating to railway companies, the rentals payable under a lease of equipment rank as a working expenditure and constitute a claim against earnings prior to both principal and interest of mortgage debt.

AN OUTSTANDING DEVELOPMENT

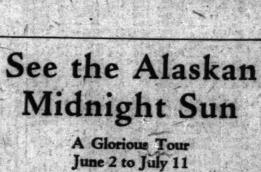

AN OUTSTANDING DEVELOPMENT

Four years ago our subscription premium offer was Lake Michigan Beach, near Benton Harbor, Mich. The success was instantaneous. Thousands of lots were sold, and many hundreds of cottages have since been erected. Property values have increased beyond our wildest expectations.

Friends of people who bought there came to us requesting us to give them an opportunity to get summer homes so far below the price they would have to pay elsewhere. The Post again offered to the public this chance two years ago by developing Pell Lake, Wisconsin. Its success was marvelous.

Again a demand was made that we give another chance to those who could not take advantage of the previous opportunities. This offer, made by The Post, is Lake Como Beach, in the vicinity of Lake Geneva, and will give to many the possibility of securing their desire, by erecting their summer homes at a minimum cost.

The finding committee declared that religion is an essential factor in education for lack of which no development of skill or knowledge can compensate. Less unanimity was found when it was sought to define the form in which religion should function in education. All agreed that personality of the teacher was the great factor, and misgiving was found in the fact that a large percentage of teachers come to their work without even a high school education.

Reading of the Bible in the public schools, it was found, while something to be encouraged, "has not yielded results to justify a final evaluation."

Northern Tissue marks a forward step in personal hygiene. As a new safeguard to your health. For it is sterilized 20 times in the making. It is actually as sanitary as scaled hospital cotton. And just as white and soft and absorbent. Doctors urge you to use it exclusively. This is why:

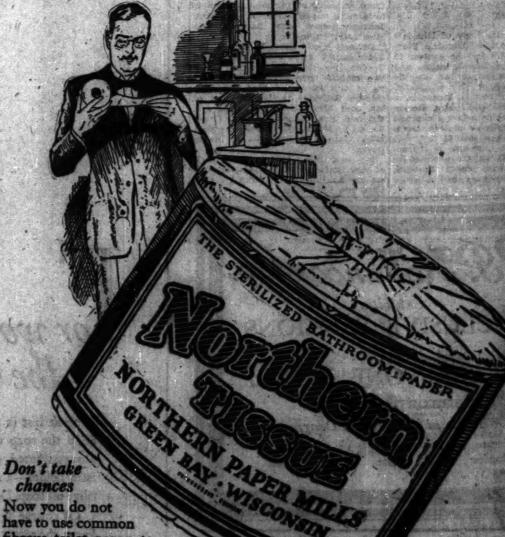

Modern medical science has traced many ills to careless hygienic methods of our everyday life. Seemingly trivial things that often endanger your health.

That is why Physicians and Surgeons everywhere recommend this sterilized Bathroom Paper. Why it is used in hospitals throughout the United States. Why foremost authorities urge Northern Tissue as a precautionary step—to safeguard health.

### Important to your health

Northern Tissue is sterilized 20 times in manufacture by our own process. Thus every roll comes to you clean and sterile.

A cultural test of this Bathroom Paper, conducted by the nationally known Columbus Laboratories, proved it to be as sanitary as sealed hospital cotton

fibrous toilet paper, to which doctors attribute many rectal troubles. Such as Pruritis Ani.

Order Northern Tissue today from your dealer. Note its snow-white color, its fine, firm texture, its down-like softness and absorbency. And remember—every sheet is sterilized. The price is no more than you pay for ordinary toilet paper.

### Ask for Northern Tissue

Simply ask for Northern Tissue. Your dealer will know your wants without further explanation. If you cannot get it, write and we will see that you are supplied.

An order was issued fixing a maximum of one half kilocycle as the extreme deviation from the authorized frequency which will be permitted.

The commission's agents were immediately notified of this order and directed to report promptly any apparent violations.

To facilitate the execution of this order, each radio broadcasting station is directed to announce twice each day, at the beginning and end of its program, the frequency kilocycles on which it is broadcasting.
